- (b) Deny access to the OCS facility, except to those responding to an emergency:
- (c) Evacuate the OCS facility in case of security threats or breaches of security; and
- (d) Report security incidents as required in §101.305 of this subchapter;
- (e) Brief all OCS facility personnel on possible threats and the need for vigilance, soliciting their assistance in reporting suspicious persons, objects, or activities; and
- (f) Secure non-critical operations in order to focus response on critical operations.

[USCG-2003-14759, 68 FR 39345, July 1, 2003; 68 FR 41917, July 16, 2003]

## Subpart C—Outer Continental Shelf (OCS) Facility Security Assessment (FSA)

### §106.300 General.

- (a) The Facility Security Assessment (FSA) is a written document that is based on the collection of background information, the completion of an onscene survey and an analysis of that information.
- (b) A single FSA may be performed and applied to more than one OCS facility to the extent they share physical characteristics, location, and operations.
- (c) Third parties may be used in any aspect of the FSA if they have the appropriate skills and if the Company Security Officer (CSO) reviews and accepts their work.
- (d) Those involved in a FSA must be able to draw upon expert assistance in the following areas, as appropriate:
- (1) Knowledge of current and anticipated security threats and patterns;
- (2) Recognition and detection of dangerous substances and devices;
- (3) Recognition of characteristics and behavioral patterns of persons who are likely to threaten security;
- (4) Recognition of techniques used to circumvent security measures;
- (5) Methods used to cause a security incident;
- (6) Effects of dangerous substances and devices on structures and essential services:

- (7) OCS facility security requirements:
- (8) OCS facility and vessel interface business practices;
- (9) Contingency planning, emergency preparedness and response;
- (10) Physical security requirements;
- (11) Radio and telecommunications systems, including computer systems and networks:
  - (12) Marine or civil engineering; and
- (13) OCS facility and vessel operations.

# § 106.305 Facility Security Assessment (FSA) requirements.

- (a) Background. The OCS facility owner or operator must ensure that the following background information, if applicable, is provided to the person or persons who will conduct the assessment:
- (1) The general layout of the OCS facility, including:
- (i) The location of each access point to the OCS facility;
- (ii) The number, reliability, and security duties of OCS facility personnel;
- (iii) Security doors, barriers, and lighting;
- (iv) The location of restricted areas;
- (v) The emergency and stand-by equipment available to maintain essential services:
- (vi) The essential maintenance equipment and storage areas;
- (vii) Location of escape and evacuation routes and assembly stations; and
- (viii) Existing security and safety equipment for protection of personnel;
- (2) Response procedures for fire or other emergency conditions;
- (3) Procedures for monitoring OCS facility and vessel personnel;
- (4) Procedures for controlling keys and other access prevention systems;
- (5) Response capability for security incidents;
- (6) Threat assessments, including the purpose and methodology of the assessment, for the OCS facility's location;
- (7) Previous reports on security needs: and
- (8) Any other existing security procedures and systems, equipment, communications, and OCS facility personnel.
- (b) On-scene survey. The OCS facility owner or operator must ensure that an

#### § 106.305

on-scene survey of each OCS facility is conducted. The on-scene survey examines and evaluates existing OCS facility protective measures, procedures, and operations to verify or collect the information required in paragraph (a) of this section.

- (c) Analysis and recommendations. In conducting the FSA, the OCS owner or operator must ensure that the Company Security Officer (CSO) analyzes the OCS facility background information and the on-scene survey, and considering the requirements of this part, provides recommendations to establish and prioritize the security measures that should be included in the FSP. The analysis must consider:
- (1) Each vulnerability found during the on-scene survey, including but not limited to:
  - (i) Access to the OCS facility;
- (ii) Structural integrity of the OCS facility:
- (iii) Existing security measures and procedures, including identification systems:
- (iv) Existing security measures and procedures relating to essential services;
- (v) Measures to protect radio and telecommunication equipment, including computer systems and networks;
- (vi) Existing agreements with private security companies;
- (vii) Any conflicting policies between safety and security measures and procedures:
- (viii) Any conflicting OCS facility operations and security duty assignments:
- (ix) Any deficiencies identified during daily operations or training and drills; and
- (x) Any deficiencies identified following security incidents or alerts, the report of security concerns, the exercise of control measures, or audits.
- (2) Possible security threats, including but not limited to:
- (i) Damage to or destruction of the OCS facility or of a vessel adjacent to the OCS facility;
- (ii) Smuggling dangerous substances and devices:
- (iii) Use of a vessel interfacing with the OCS facility to carry those intending to cause a security incident and their equipment;

- (iv) Use of a vessel interfacing with the OCS facility as a weapon or as a means to cause damage or destruction; and
- (v) Effects of a nuclear, biological, radiological, explosive, or chemical attack to the OCS facility's shoreside support system;
- (3) Threat assessments by Government agencies;
- (4) Vulnerabilities, including human factors, in the OCS facility's infrastructure, policies and procedures;
- (5) Any particular aspects of the OCS facility, including the vessels that interface with the OCS facility, which make it likely to be the target of an attack:
- (6) Likely consequences, in terms of loss of life, damage to property, or economic disruption, of an attack on or at the OCS facility; and
- (7) Locations where access restrictions or prohibitions will be applied for each MARSEC Level.
- (d) FSA Report. (1) The OCS facility owner or operator must ensure that a written FSA report is prepared and included as a part of the FSP. The report must contain:
- (i) A summary of how the on-scene survey was conducted;
- (ii) A description of existing security measures, including inspection, control and monitoring equipment, personnel identification documents and communication, alarm, lighting, access control, and similar systems;
- (iii) A description of each vulnerability found during the on-scene survey;
- (iv) A description of security measures that could be used to address each vulnerability;
- (v) A list of the key OCS facility operations that are important to protect; and
- (vi) A list of identified weaknesses, including human factors, in the infrastructure, policies, and procedures of the OCS facility.
- (2) A FSA report must describe the following elements within the OCS facility:
  - (i) Physical security;
  - (ii) Structural integrity;
  - (iii) Personnel protection systems;
  - (iv) Procedural policies;

- (v) Radio and telecommunication systems, including computer systems and networks; and
  - (vi) Essential services.
- (3) The FSA report must list the persons, activities, services, and operations that are important to protect, in each of the following categories:
  - (i) OCS facility personnel;
- (ii) Visitors, vendors, repair technicians, vessel personnel, etc.;
  - (iii) OCS facility stores;
- (iv) Any security communication and surveillance systems; and
- (v) Any other security systems, if any.
- (4) The FSA report must account for any vulnerabilities in the following areas:
- (i) Conflicts between safety and security measures;
- (ii) Conflicts between personnel duties and security assignments;
- (iii) The impact of watch-keeping duties and risk of fatigue on personnel alertness and performance;
- (iv) Security training deficiencies; and
- (v) Security equipment and systems, including communication systems.
- (5) The FSA report must discuss and evaluate key OCS facility measures and operations, including—
- (i) Ensuring performance of all security duties;
- (ii) Controlling access to the OCS facility through the use of identification systems or otherwise;
- (iii) Controlling the embarkation of OCS facility personnel and other persons and their effects (including personal effects and baggage, whether accompanied or unaccompanied);
- (iv) Supervising the delivery of stores and industrial supplies;
- (v) Monitoring restricted areas to ensure that only authorized persons have access:
- (vi) Monitoring deck areas and areas surrounding the OCS facility; and
- (vii) The ready availability of security communications, information, and equipment.
- (e) The FSA, FSA report, and FSP must be protected from unauthorized access or disclosure.

[USCG-2003-14759, 68 FR 39345, July 1, 2003; 68 FR 41917, July 16, 2003, as amended at 68 FR 60558, Oct. 22, 2003]

#### § 106.310 Submission requirements.

- (a) A completed FSA report must be submitted with the Facility Security Plan (FSP) required in §106.410 of this part.
- (b) An OCS facility owner or operator may generate and submit a report that contains the FSA for more than one OCS facility subject to this part, to the extent that they share similarities in physical characteristics, location and operations.
- (c) The FSA must be reviewed and validated, and the FSA report must be updated each time the FSP is submitted for reapproval or revisions.

[USCG-2003-14759, 68 FR 39345, July 1, 2003, as amended at 68 FR 60558, Oct. 22, 2003]

## Subpart D—Outer Continental Shelf (OCS) Facility Security Plan (FSP)

#### §106.400 General.

- (a) The OCS facility owner or operator must ensure the FSO develops and implements a Facility Security Plan (FSP) for each OCS facility for which he or she is designated as FSO. The FSP:
- (1) Must identify the FSO by name or position and provide 24-hour contact information:
  - (2) Must be written in English;
- (3) Must address each vulnerability identified in the Facility Security Assessment (FSA):
- (4) Must describe security measures for each MARSEC Level; and
- (5) May cover more than one OCS facility to the extent that they share similarities in physical characteristics and operations, if authorized and approved by the cognizant District Commander.
- (b) The FSP must be submitted for approval to the cognizant District Commander in a written or electronic format in a manner prescribed by the cognizant District Commander.
- (c) The FSP is sensitive security information and must be protected in accordance with 49 CFR part 1520.
- (d) If the FSP is kept in an electronic format, procedures must be in place to prevent its unauthorized deletion, destruction, or amendment.
